Worms Mix for every 10 Foot
Bucket Garden Run.

Directions:

1. Mark the bottom of the bucket from the edge above the handle to the edge above the other handle.
2. Drill 7 holes. One in the middle and three on each side of the middle.
3. Deburr the holes.
4. Turn the bucket over and deburr the inside side of the holes.
5. Place the window screen inside over the holes.
6. Place some leaves and soil, about 3 inches.
7. Pick up the bucket, without tipping it, to make sure the screen stayed over the holes.
8. Fill with your Bucket Garden Soil (see video at www.MyBucketGarden.com/videos)
9. Plant your crops.
